Experience

UX Designer / Corbis
Jul 2011 - Present

- Designed user flows, wireframes, and visual designs for the search, find, and buy paths on Corbis' ecommerce sites
- Planned and conducted usability testing on GreenLight Music, Veer, and Corbis Images that increased understanding of user needs and informed designs
- Collaborated with designers, product owners, localization, and developers for iterative feedback and quality assurance of developed designs
- Reviewed and provided usability improvements for Corbis' iOS apps

UX Design Intern / Corbis
Jun 2010 - Jun 2011

- Created wireframes and visual designs for over 10 projects on Corbis Images such as automated quotes and live help
- Brainstormed and wireframed concepts for Corbis Images iOS app
- Coordinated and managed a UX awareness campaign that targeted over 100 employees in the Technology department

Multimedia Intern / UW Department of Communication
Jun 2009 - Sept 2009

- Planned and conducted usability testing with targeted users of academic professors and students that qualitatively measured effectiveness of the site's redesign

Web Designer / Children's Communication Corner, LLC
Jan 2009 - Mar 2009

- Identified client requirements and created a project plan
- Redesigned and developed website for improved usability
- Conducted task-based testing with users for feedback in an iterative design
